

Environmental Policy IP

Mission

Injextru Plastics creates value by designing and producing plastic profiles for industrial customers.

Policy statement

Injextru Plastics commits to:

- complying with applicable environmental legislation and other environmental compliance obligations to which the organization subscribes;
- preventing pollution and reducing the environmental impact of its activities, including energy consumption, waste management (including the processing of regrind material), and noise emissions;
- using raw materials and resources efficiently and sustainably;
- identifying and managing environmental risks and opportunities related to the organization's context in a timely manner, in line with the risk-based approach of the management system;
- continuously improving the organization's environmental performance, in line with the PDCA (Plan-Do-Check-Act) approach of the management system.
